## **DETAILED ACTION**

## Reasons For Allowance

1. Applicant's amendment filed on 6/27/06 have been fully considered and are persuasive.

2. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention is deemed allowable over the prior art of record as the prior art fails to teach or suggest a second register coupled to the first register, the second register to store a first value and a second value for a timing parameter in a signal sequence for execution of the first and second PCI slot operation commands, the second value being different from the first value in combination with other limitations as recited in independent claims and further in view of the specification and applicant's arguments.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
